INTERIOR DESIGN COALITION OF ARIZONA

July 15, 2011

IDCA is a non-profit organization with all efforts going towards enacting interior design legislation in Arizona. It realizes the practical requirements, including appropriate education, experience and examination that Interior Design professionals must possess. The Coalition is working on legislative action that will allow the consumer to differentiate among levels of expertise and qualifications of individuals of Interior Design service providers. The Coalition also strives to establish and protect the profession of Interior Design. Without the support of our sponsors IDCA will not be able to continue to push forward with this important legislative act.

The coalition is a 100% volunteer based, non-profit organization and your support makes all of our efforts possible. The monetary donations to IDCA will go directly to our legislative effort in the State of Arizona. Your support enables us to sponsor a lobbyist, hire campaign strategists, hold events to raise money, visit schools and educate future professionals, sponsor CEU's and much more.
